SUMMARY

Cybersecurity graduate with hands-on experience in SOC operations, penetration testing, vulnerability assessment, and incident response. Holds CCNA and CCT certifications. Comfortable working in both Windows and Linux environments, with practical exposure to SIEM platforms, ethical hacking toolkits, and secure network design.

TECHNICAL SKILLS

Security Tools: Kali Linux, Metasploit, Wireshark, WAZUH (SIEM), Nmap

Competencies: Penetration Testing, Vulnerability Assessment, Threat Monitoring, Incident Response, Log Analysis

Development: Python, ASP.NET, OpenCV, MySQL

Networking: TCP/IP, Routing & Switching, Network Security (CCNA)

Platforms: Windows, Linux

EXPERIENCE

Cybersecurity Trainee – Green Circle for Cybersecurity Nov 2025 – Feb 2026

- Conducted vulnerability assessments and penetration tests on internal systems, documenting findings and remediation recommendations.
- Enforced cybersecurity standards and access controls to protect critical infrastructure.

Cybersecurity Trainee – National Cybersecurity Center (NCSCJO) Jul – Aug 2025

- Participated in SOC operations, monitoring and analyzing security events using SIEM dashboards.
- Performed hands-on incident response and threat detection exercises in simulated environments.

PROJECTS

SOC Security Monitoring Dashboard Dec 2025

- Built a log analysis dashboard to detect cyber threats and assist analysts in incident investigation and attack pattern identification.

Penetration Testing Toolkit – DAN-TOOLS Aug 2025

- Developed a consolidated toolkit of 250 cybersecurity utilities with auto-install support, each with usage documentation. Available on GitHub.

Facial Recognition System – Graduation Project Jun 2025

- Built a real-time face identification system using Python, OpenCV, ASP.NET, and MySQL, integrating recognition with secure data storage.

EDUCATION

B.S. in Cybersecurity – Al-Zaytoonah University of Jordan 2025

CERTIFICATIONS

- CCT – Cybersecurity Certified Technician (EC-Council)
- CCNA – Cisco Certified Network Associate
